Caring for Canadians at End-of-Life: A consultation to develop a strategic plan

Dear CHPCA Members,

The Canadian Hospice Palliative Care Association (CHPCA) is updating its strategic plan. As part of its ongoing planning process, the CHPCA Board is seeking advice from its members.

This discussion paper briefly describes:

- the key challenges or barriers to quality hospice palliative and end-of-life care in Canada;
- the strengths in our field;
- the progress we've made since our last strategic plan; and
- our proposed vision, mission goals and activities for the next five years.

Over the past five years, we have made some progress in improving both access to care and the quality of end-of-life care for Canadians. However, much more must still be done.

We invite you to help us set our course for the next five years. Please provide your feedback by **Monday September 28th, 2009**.

There are two steps to proceed:

1. To review the strategic plan, please click on the link below:
[Strategic Plan Document](#)
2. To provide your feedback, please complete the following brief survey:
